## FOREWORD

---

The essence of devolution is to provide maximum benefits to the citizens of the County. The main responsibility of the Assembly is to facilitate this through appropriate representation of the people, legislating and providing oversight over the executive to ensure fair and equitable use of resources. It is for this reason that I am most delighted to present the first Strategic Plan of the County Assembly of Tharaka Nithi.

The Assembly is very clear on the responsibilities given to it by the Constitution of Kenya 2010 and the County Government Act No. 7 of 2012. The Assembly is also aware of its role in the greater county objectives as prescribed by the County integrated development program.

The County recognizes its role in achieving the greater National Agenda. The Kenya Vision 2030, the Big 4 Agenda, and other regional and international initiatives. While there are challenges and contradictions in dealing with all these, we believe that the Strategic Plan will provide an appropriate weapon to counter the impediments.

The Strategic Plan highlights the three fundamental key result areas of Representation, Legislation and Oversight. It recognizes the importance of support key result areas under Institutional Capacity necessary to be able to deliver the three fundamental key result areas. For every key result area, the strategy identifies strategic issues and goes on to develop appropriate strategic objectives, strategies and activities.

The Plan sets out our areas of focus and use of resources, thereby strengthening operations and ensuring that we are all working towards a common goal.

While the Assembly shall endeavor to be at the forefront in implementing the strategy, the responsibility of achieving the desired goals rests on all of us.

I would like to acknowledge the valuable role played by the stakeholders in developing this Strategic Plan and call upon them to play their role in the implementation.

**HON. DAVID JOHN MBAYA**  
**SPEAKER/CHAIRPERSON TO THE COUNTY ASSEMBLY SERVICE BOARD**

## **PREFACE**

Let me sincerely express my gratitude to all those who gave their contributions. The guidance of the Hon. Speaker, Members of CASB and Members of the Assembly particularly for comprehensive information through the questionnaire. The members of staff provided technical information for which we are very grateful.

Our consultants from Rovans Management Services Ltd did an excellent job and provided strategic oversight throughout the process.

The Plan is our strategic intent, which now needs to be actioned. We urge all our stakeholders to play their role in implementation.

## EXECUTIVE SUMMARY

---

County Assembly of Tharaka Nithi Strategic Plan has been developed in cognizance of appropriate Legal and Policy framework, Kenya's Vision 2030, Sustainable Development Goals, and the Tharaka Nithi County Integrated Development Plan. It has taken into account the obligations of the Assembly set out in the Constitution of Kenya 2010 among other legal and policy documents. The implementation of this Strategic Plan invokes stakeholder participation, good governance and a professional approach to institutional management. The Vision of the Assembly is ***"To be the seat of good governance"*** while its Mission is ***"To steer the County of Tharaka Nithi to prosperity through effective legislation, consultative representation and robust oversight"***.

The historical, legal and institutional framework presents the development of the Assembly, the rationale and the methodology of the Strategic Plan. It also provides a framework which expounds on the Assembly's mandate as stipulated in the Constitution of Kenya 2010 and the County Government Act 2012. The Assembly positions itself to play its role in the National Agenda and Developmental Challenges. In this regard, it has also presented its agenda and the challenges in the dynamic environment of the public sector. It also takes cognizance of the importance of the linkages and collaborations in the achievement of the set strategic objectives. The situational analysis stipulates the achievements of the Assembly, challenges and lessons learnt. It also deals with the environmental analysis as they affect the Assembly using the SWOT and PESTEL models. Key stakeholders were identified, analysed and the Assembly's management requirements from them acknowledged.

During the Plan period, a Strategy focus for the Assembly shall emphasize on four Key Results Areas (KRAs):

- 1. Representation**
- 2. Legislation**
- 3. Oversight**
- 4. Institutional Capacity**

A strategy matrix has been developed to match the identified Key Result Areas with strategic objectives and appropriate strategies that will enable the Assembly achieve the KRAs.

Institutional capacity and resource mobilization were analyzed to determine the organizational structure and staffing levels. An appropriate implementation and coordination mechanism has been developed which identifies what the Assembly must accomplish before, during and post implementation period. A set of risk factors were identified which might affect the implementation of the Strategic Plan and appropriate mitigating factors have been suggested. The Plan puts in place Monitoring, Evaluation and Reporting systems which include monitoring methodologies, evaluation mechanisms, progress reports, internal audit, monthly and quarterly management meetings, performance management, staff appraisal and external reporting in the achievement of the Plan results. A midterm review will be undertaken in December 2022 and appropriate amendments made at that time. A final evaluation will be done in March 2025 to create the baseline for the next Strategic Plan.

### 1.15 The Role of County Assembly in the Sustainable Development Goals

The social, economic and environmental development of the nation is the core business of all parliaments. It is fundamental to the quality of society and the well-being of the people. Recognizing the massive inequalities that persist in the world, and resolving to take concerted action to address them, the world’s leaders adopted in September 2015 the 2030 Agenda for Sustainable Development. The Agenda comprises a set of goals and targets that are shared by all countries, ranging from eradicating absolute poverty to reversing climate change, and from achieving gender equality to changing consumption and production patterns. They are resolutely placed within the existing international human rights framework and carry a strong commitment to “leave no one behind.” Respect for all human rights is the litmus test of sound

policy at all levels. Importantly, the SDGs recognize that peace, justice, strong institutions, and gender equality are key enablers if the SDGs are to be achieved.

The SDGs do not replace the work that legislation is already doing in support of national development. Instead, they provide a framework and a renewed impetus to focus efforts at the national and international levels on people’s prosperity and well-being. Each country is called upon to domesticate the SDGs and to incorporate them into its own development planning. The concept stresses the importance of local ownership, which places the responsibility on each country to connect its national development planning to the international framework. In September 2015, the United Nations General Assembly explicitly called for an active parliamentary role in the 2030 Agenda for Sustainable Development, including ensuring accountability for the effective implementation of the SDGs. The Assembly recognizes the SDGs as the primary component of the new international architecture for sustainable development and will play its role towards achieving the same.
